SWAPNIL RAMTEKE
Full-Stack Developer

Nagpur,Maharashtra

📞 +91-8329207372 ✉ swapnilramteke004@gmail.com 🔗 Linkedin ⭘ Github

Aspiring full-stack developer with hands-on internship experience in building responsive user interfaces and scalable backend services. Experienced in collaborating on real-world projects, following Agile methodologies, and contributing to all stages of the development lifecycle. Committed to writing clean, maintainable code and continuously improving through feedback and learning.

EDUCATION

Full-Stack Development	**02/2025 – Present**
Masai School	*Bengaluru, Karnataka*
Master of Science (Genetic Engineering)	**2020 – Present**
Rashtrasant Tukadoji Maharaj Nagpur University	*Nagpur, Maharashtra*
Bachelor of Science (Science)	**2015 – 2019**
Rashtrasant Tukadoji Maharaj Nagpur University	*Nagpur, Maharashtra*

TECHNICAL SKILLS

Technologies/Frameworks: JavaScript,HTML5, CSS3, React,Redux-toolkit, MongoDB, Express, Nodejs, Typescript

Developer Tools: Postman, Cloudinary, VS Code

SOFT SKILLS

Soft Skills: Communication, Teamwork, Creativity, Adaptability

PROJECTS

Drag & Drop To-Do App ⭘ Github |

- **Tech Stack:** React.js, CSS Modules, HTML5, JavaScript, Netlify, GitHub
- A modern and responsive to-do list application with drag-and-drop functionality.
- Integrated drag-and-drop functionality into the project management software, enhancing task organization and workflow management; improved team collaboration scores by 25% based on surveys.

Online Exchange – Marketplace ⭘ Github |

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Mongoose, Redux, Render, GitHub
- Designed and developed a full-stack responsive marketplace application with key features like user authentication, product search, filtering, sorting, pagination, and real-time notifications, improving user engagement by 30%
- Implemented role-based access control for users and admins, enabling secure listing and bidding operations, which streamlined product management efficiency by 40%.

EXPERIENCE

Intern at Nullclass EdTech Private Limited. 🔗   Dec 2023 - Mar 2024

Role - Software Developer

- Developed and maintained scalable RESTful APIs using **Node.js** and **Express**, with **MongoDB** integration for reliable and efficient data storage.
- Collaborated on diverse real-world projects using structured development workflows, version control, and modular coding methodologies.

Intern at Codebypk Pvt. Ltd. 🔗   Sep – Oct 2024

Role - Frontend Developer

- Designed and implemented high-performance, mobile-responsive user interfaces using **HTML5, CSS3, and vanilla JavaScript**, ensuring cross-browser compatibility and modern UX practices.
- Integrated RESTful APIs to enable dynamic data rendering, collaborating closely with backend teams to streamline end-to-end functionality and reduce data latency.
